

I Won't Back Down Again

You can never see the hold you have on me

You'd be the death of me

Your over bearing status has weakened me

You've cut me down to your knees

Bridge

But I'm holding back emotion

Keeping my devotion

You can't steal that from me

I'm a man on a mission there aint no intermission

Have a little faith and you'll see

Chorus

Enough is enough i'm gonna stand my ground

And I won't back down again

I've taken too much, yeah but now I'm tough

And I won't back down again

Endless paranoia is provoking me

You've set this trend don't you see

I hung on your words like a chimpanzee

Now I want to break free

Bridge

Chorus
