

In the Picture

Oh I can see through him and all his mindless schemes

He may have fooled some but he doesn't fool me

(CHORUS)

This could be the time of our lives

This could be the biggest ride

Oh this could be the time of our lives but once again he's in the picture

Old thoughts still linger in your mind from time to time

These wounds grow deeper as I pretend I'm fine

I'm not fine

(CHORUS)

This could be the time of our lives

This could be the biggest ride

Oh this could be the time of our lives but once again it's not

but once again it's not

Try to understand what you've been through

Try to make some sense of the things you do

But it's no use your gonna have to choose

I don't wanna lose

I don't wanna lose you

(CHORUS)

This could be the time of our lives

This could be the biggest ride

Oh this could be the time of our lives

Oh this could be the time of our lives

Yeah

But once again he's in the picture
