

No Worries

There used to be, so much harmony

Till recently, it went away from me

Now I realise, the problems in Life

Back then I was oblivious, back then I was blind

Bridge

You can stop the drink

Be careful in Life

But Eventually

Your destiny won't be on your side

Chorus

I wanna go back through life

When everything was fine

No Worries or Troubles or Bad thoughts through my mind

Nothing was too serious

It was all a bit mysterious

But now it's gone

The Will to carry on

Now I realise, the problems in Life

Back then I was oblivious, back then I was blind

What's the point of going on

Cause round the corner

It could all be gone

Bridge

Chorus

What's the point of going on

Cause round the corner

It could all be gone

Chorus
