

Take it or Leave It

Trying Trying Trying to read the signs

Trying Trying Trying to read your mind

But i'm still stood here

Far away from getting near to unlock your hearts desires

But im still waiting

Waiting for a glimpse of hope that you feel the same as I do

Bridge

Cause you've got me wrapped around your finger

I'm stumbling over backwards to

Sell myself to break through your silence

Chorus

So Take it or leave it, Tell me don't lead me on

Take it or leave it, Before the moment has gone

Waiting Waiting Waiting for you to call

Do you expect me to do it all?

Does this mean she's keen

But is holding back so I react to give her the upper hand

Or does she hate me

And is posing coy with evil ploys which I just don't understand

Bridge

Chorus

Middle

This is the bed you've laid

Look at the mess you've made

Stop playing my heart

Just lay it on the line

Give me a clear cut

Give me a clear cut sign

Chorus

Just lay it on the line

Give me a clear cut

Give me a clear cut sign
