

Better Days

I have the best intentions
I'm just misunderstood
I'm trying to see what's positive
I'm trying to find the good
But it's not that easy
The glass is half empty
It's the same old story
That's pouring out of me

Bridge

I don't want to be this way
Can I break the chain?
Of living my whole life
Feeling so ashamed

Chorus

Waiting for the pieces to fall in place
Waiting for the sun to light the way
Is there hope for me will I ever change
Or am I just destined to be this way
Forever and a day
I'll just keep on waiting for better days

All the limitations
I put on my self
I keep myself restricted
I'm hiding on the shelf
I wish it was easy
I wish I could please me
Keep dreaming of the glory
Of what my life could be

Bridge

Chorus

Middle

**I've got no one to blame
Let's get my head in the game
Convince myself
I can do it
I can do anything**

Chorus
