

What's the Use

**Down on my luck
heartbreak's run amuck
that's when you found my sorry soul**

**I got back on my feet
took a back seat
and I let the good times roll**

**Cause time will only tell
if we'll hear those wedding bells
But somehow I don't think so**

**We can be united that get's me excited
But it's not enough to get us through the bumpy road**

**I don't know what happened to our love
Cause this love's not working**

**Baby What's the Use
Because it's not not not getting better
we've tried but we've only proved
that it's not not not getting better**

**I've jumped through your hoops I've even looped the loop
why won't you meet me halfway**

**Sure I can be self obsessed, but hate the loneliness
of all the choices I make**

**By Now you've found me out
You've stripped me of my crown
so convinced you can turn me round**

**If our love is a ship then
I guess we need a captain
cause as it stands were going
Down Down Down Down Down**
